ELITE LC TRAY

Light Curing Plates

DESIGNED FOR EFFICIENCY

Example of application

Elite LC Tray
- Big size -

**1. Individual impression trays
for fixed and combined prostheses**

Best choice Elite LC Tray

Big-size light-curing plates ideal for individual trays in fixed and combined prostheses (both for superior and inferior arches).

Elite LC Tray ROUND
- Medium size -

**2. Blocking telescopic
or secondary crowns
on model**

**3. Trays or bases for
mounting prosthesis teeth
in removable prostheses**

Best choice Elite LC Tray ROUND

Medium-size light-curing plates with an ergonomic shape capable to minimize the waste of material during the working process.
They are ideal for blocking telescopic or secondary crowns on model, trays or bases for mounting prosthesis teeth in removable prostheses, fixing tools for bite registration plates.

Uses

- Individual and functional impression trays
- Bite plates
- Bases for mounting prosthesis teeth
- Base plates for fixing registration devices

Example of use

1. Stone models.

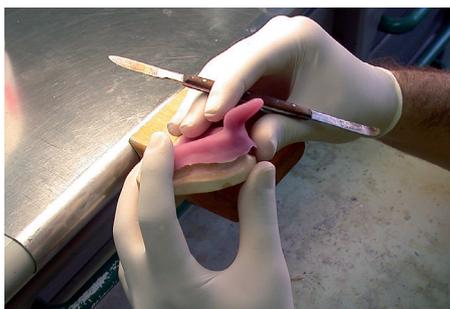

2. Isolation.

3. Positioning the plate.

4. Modelling.

5. Creating the handle.

6. Curing.

7. Removing the model.

8. Finishing.

9. Definitive custom tray.

Characteristics

- Cured with either halogen or UV light
  (3 - 5 minutes)
- Available in three colours:
  white, pink and blue
- Medium-sized ergonomic shape

Advantages

- High breaking strength during modelling
- Easy to model, not sticky
- Stable to natural or artificial light for about 20'
- Ergonomic shape to reduce excess material to be
  reworked
